

Lake Rosseau Loop

DRIVE-AND-RIDE SELF-GUIDED ITINERARY

The impressive Lake Rosseau Loop links five Lake Rosseau communities: Port Carling, Port Sandfield, Minett, Rosseau and Windermere.

The tour around Lake Rosseau is a celebration of the landscape of Muskoka and Seguin, challenging, rewarding, exciting and beautiful. The experiences along the route blend the distinct luxury and incredible natural beauty unique to Ontario Cottage Country.

EXPERIENCE LEVEL

Best suited for experienced cycle tourists comfortable riding with traffic. Some of the route follows Muskoka Road 118 West, an important arterial road connecting Bracebridge on Highway 11 to Highway 69. Traffic intensifies near Port Carling. Muskoka Road 118w presently has narrow-to-no shoulders east of Port Carling, requiring cyclists to travel alongside traffic, including truck traffic. Highway 141 has paved shoulders. All other roads on the route involve shared on-road facilities. District of Muskoka is improving conditions annually.

TERRAIN

This route is very hilly, including several steep hills and some impressive downhill stretches where you can coast for long stretches. All roads on the route are paved.

TIPS

Expect 15–20 km between major amenities on the route and plan ahead. Carry extra water and snacks and expect extra time to accommodate the terrain. E-bikes help with hills. Some businesses close for the season starting in September, including most amenities in Minett. If cycling in September or later, we recommend calling the businesses you hope to visit in advance. While the tour route is based in Port Carling, it can just as easily be based in Rosseau, Minett or Windermere.
